HELP US DESIGN a conversational agent Sofia

Google is NOT the sponsor of the research.

Your Experience Matters.

We have designed a conversational agent called “Sofia” that supports daily diary logging and self-reporting your health and well-being using voice.

The aim of this study is to compare the effectiveness and engagement of voice based self-reports vs. traditional web application, and learn from your experience to design better conversational agent.

Investigators:

Jakob E. Bardram, jakba@dtu.dk, +45 45 25 53 11

Per Bækgaard, pgba@dtu.dk, +45 45 25 39 08

Raju Maharjan, rajm@dtu.dk, +45 91 86 25 61

What will I have to do?

Participate in 2 (pre and post) interview sessions.

Log a **daily diary** and answer a few **questions** every 14 days for **8 weeks** either via Sofia or a web app.

Who can participate?

Anyone with current diagnosis of **mild or moderate depression**.

What's in it for me?

At the end of the study, you will be compensated with a voucher worth \$100 with an option to keep a Google Home Mini
